About Me

I am an exceptionally motivated and enthusiastic computer science student who is deeply passionate about software development. My skill set includes expertise in C#, front-end technologies like JavaScript, React, CSS, and HTML. Additionally, I possess a solid understanding of databases, particularly MySQL and MongoDB. I am particularly drawn to the intersection of technology and finance, and I am always on the lookout for the latest trends and emerging technologies in both fields.

Education

Gaziosmanpasa Univeristy — Computer Engineering (BE) [Sept 2019 - June 2024](#)
